Class Descriptions

Cardio Formats

Cardio Drumming moves to simple rhythms as you use the stability ball & weighted drumsticks for your own cardio jam session. The workout uses a variety of music & choreography to get your heart rate up & have fun while you exercise!

Cycle is a low-impact indoor ride that simulates varied terrains as you tackle rolling hills, sprints & other drills to challenge your cardiovascular system & build muscular endurance, strength and power.

LES MILLS SPRINT™ is a 30-minute HIIT workout, using an indoor bike to achieve fast results & drive your body to burn calories long after you've stopped exercising. The motivation comes from pushing your limits.

RPM™ is Les Mills' challenging non-impact cycling journey to push your cardiovascular fitness to the next level. Improve your strength with rolling hills & mountains & increase your power with attacks, sprints & races.

Step Aerobics is a high-energy workout with a variety of steps, patterns & choreography to increase your heart rate & train your cardiovascular system.

Zumba® is a dynamic fusion of Latin & International music/dance rhythms with moves & combinations that are fun & easy to learn.

Strength Formats

Barre Fitness is the ballet inspired workout that requires no dance experience. Using a variety of ballet, yoga & Pilates inspired movements, you'll gain strength, improve your balance & flexibility & sculpt a long, lean, strong body.

BODYPUMP™ is Les Mills' barbell workout for anyone looking to get lean, toned & fit. Using light to moderate weights with lots of repetition, BODYPUMP targets all the major muscle groups with scientifically proven moves and techniques.

LES MILLS CORE is Les Mills' signature 30-minute core-focused class ideal for tightening your abdominal & glute muscles, strengthening low back & hips, as well as improving functional strength.

Suspension Training is a total body strength training workout utilizing your own body weight for resistance. Using suspended straps, this workout will improve your strength, flexibility & balance while engaging your core muscles for stabilization.

S.T./Kettlebell (KB) Fusion integrates Suspension Training with kettlebell lifts, using exercises that are dynamic, powerful & purposeful. This workout will help to increase your body's efficiency, increase core strength & improve overall well-being.

Mind/Body Formats

BODYBALANCE™ is Les Mills' signature mind-body class that combines controlled breathing, concentration & a carefully structured series of stretches, moves & poses with roots in Yoga, Pilates & Tai Chi to create a holistic workout that brings your body into a state of harmony and balance.

Gentle Yoga is a combo seated/standing yoga class that offers the use of a chair as a prop for balance & support, if needed. You will slowly move through postures designed for strength, balance & flexibility.

Mat Pilates stretches & strengthens your entire body, primarily focusing on the muscles of the core, the Powerhouse of the body. Pilates uses techniques from dance & yoga to create a low-impact workout perfect for all levels of fitness.

Mobility Flow is all about dedicating time to care for your body & soft tissue to promote better movement & improved functional range of motion. This class will use yoga postures, props such as foam rollers & tennis balls, & bodyweight movements to get you moving better for fitness or athletic performance & for everyday life.

Restorative Yoga is a restful practice that is all about slowing down & opening your body through passive stretching. We hold poses for a longer duration & allow for deep relaxation that emphasizes the meditative aspect of yoga.

Vinyasa Yoga is a dynamic and flowing style of yoga that links the conscious breath with mindful movement. Use the movements, postures & breath to help improve balance, flexibility & strength while creating a connection between the body & mind.

Combination Cardio/Strength Formats

BODYSTEP™ is Les Mills' full-body cardio step workout. In a BODYSTEP workout, you can expect a mixture of upbeat, rhythmic stepping, with squat & lunge patterns to work the lower body. Combine this with powerful strength movements & the result is a fun, uplifting, full-body workout!

TBC - Total Body Conditioning incorporates cardio conditioning & strength movements with minimal rest paired with motivating instruction. The variety will keep your body guessing & take your fitness to the next level, no matter your starting point.

XPRESS Factor is a group training class designed to get you in & out quickly, hitting all the major muscle groups & training the cardiovascular system. This class is designed for the athlete in all of us.

Gentle Classes

Fit for Life is a gentle, low-impact exercise class that includes both a cardio and strength component, as well as balance and flexibility work.

Practical Exercise is a combo seated and standing strength class that improves personal independence for activities of daily living such as walking, bending, carrying and more.
